Public update on progress and developments of Wanuskewin Heritage Park

April 2018

Construction Update

The month of March has continued with roof construction, insulation and window replacement. The new cedar shakes on the roof are looking great.

The project team has continued with the new exhibit design, building design, Bison pasture design, playground concepts among many other components of the Thundering Ahead renewal project. Completion of the expanded visitor center is expected in the spring of 2020 with all of the new exhibits installed.

Wanuskewin is continuing to consult our core Elders group;
