

Wanuskewin Heritage Park

Public update on progress and developments of Wanuskewin Heritage Park

September 2018

Project Update September 2018

Construction has begun on the north end of the building with foundations being poured this month. Walls will be ready to go up in October. The team is currently finalizing all drawings to start renovations of the gift shop, small gallery, etc. Our aquatic survey was completed this summer providing final measurements for the beaver bafflers.

Wanuskewin publicly released our exhibit design in August with a fly through video. This release also included the future playground and full building expansion plans.

There will be more information released in the coming months about the future state of Wanuskewin Heritage Park and the introduction of the Bison.
